

1. Name of the product

Eendoostaak Stacking task

2. Product code

21840846

3. Colour

As illustrated

4. Short description

Tasks that are made within the framework of a plastic box. The tasks have a clear beginning and a closed end. The material is uniform, durable, safe and hygienic. The one-task-boxes are specifically designed for children / young adults with autism and are aimed at development and learning. Adults and older people with a lower mental level can perform the tasks to maintain skills or as a relaxing activity.

5. Contents

This task contains 3 cubes and 3 beads.

6. Safety

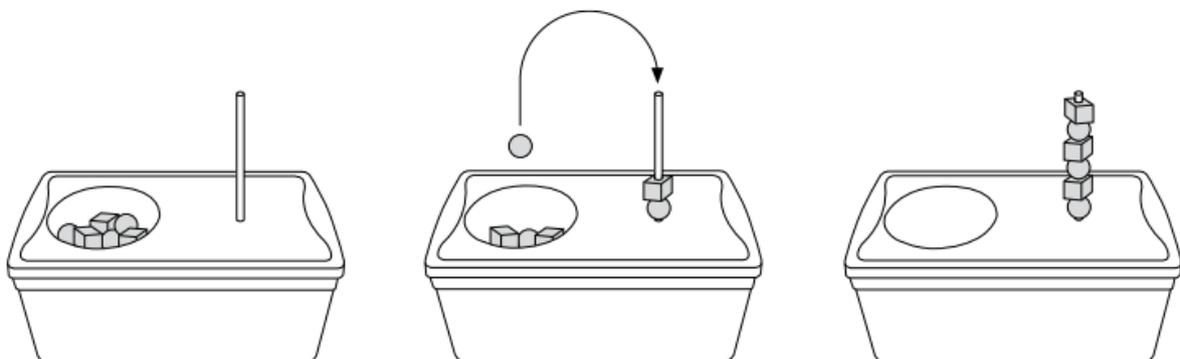

This product should be made under guided/adult supervision at all times. Because of the small parts, it is not suitable for children under 3 years of age.

7. Product materials

Plastic box (33x19x12.5 lwxh) provided with a plastic container, beech stick, and wooden beads.

8. Assembly

With force, the wooden stick needs to be inserted into the hole in order to have the stick stand in the container as steady as possible. The game materials are not suited for disassembly.

9. Usage

A simple and clear stacking task that promotes the development of eye-hand coordination.

Game end

The game ends when all the beads have been stacked.
